

## 50-Liter FFM Medical FridgeFreeze

The 50-Liter FridgeFreeze medical refrigerator/freezer is a low-profile unit that can be placed on or under a counter top. Designed to fit into a tighter space, these rugged fridges are even light enough for two people to carry. They can be operated, like our other fridges, using a solar panel or a vehicle's 12-volt outlet.

### **Volume**

50 liters

### **Inside Dimensions**
